In Memoriam

Dear All,

This issue of our newsletter attempts to address two major turning points in the life of Philip Roth: The late-fall announcement that he is indeed retiring; and, come spring, the celebration of his 80th birthday. While we all felt slightly disoriented and unprepared for Roth’s retirement, we have been planning eagerly for over a year to celebrate Roth’s birthday with him in March.

When the Huffington Post asked me, and several other Roth scholars – many of whom are members of this Society – whether I would write a personal reaction to Roth’s retirement, I dutifully agreed. However, I did not start writing the essay in earnest until mid December. Originally entitled, “In Memoriam,” I had planned to finish and submit the essay on Friday, December 14 – the day of the shooting at Sandy Hook Elementary school in Newtown, CT, about 40 minutes from my son’s elementary school. The title was intended to allude to a Tennyson elegy but also to reflect the sadness we all felt – our own elegiac responses – to the retirement of one of our literary heroes. Not yet cognizant of the impropriety of comparing the retirement of one of America’s greatest living writers to an actual death or deaths, I put my pen down in the morning and went in to “volunteer” at my son’s school.

I brought this up now because I have reflected often on my actions since December 14 — some actions unconscious, others steeped in sadness and worry — and realized, in part, what our initial reaction to Roth’s retirement has meant. We all have become used to turning to Roth’s literature in order to process the horrors in life and the unsettling aspects of American history. Roth has used his narrative genius to make sense of what we feel we otherwise cannot articulate: the polio epidemic, the spread of Nazi totalitarianism and anti-Semitic attitudes, World War II, the Red Scare, the Korean War, Vietnam, life post 9-11, confrontation with terminal illness, abuse, terror, and the list goes on. How will we as a culture come to terms with gun violence and the horror of 12/14/12? I am not quite sure. But I can say that the literary landscape will be lesser without the appearance of another Roth novel another communique in the void of understanding. (Continued …)
As such, I am recycling my former title, “In Memoriam,” here. It is to remember the children of Sandy Hook and also to point up something we should have realized already—the fact that, despite the notice Roth has garnered for his focus on the post World War II generation and his youth among the Jewish American community, he has always been interested in the fate and futures of the children—from his very first novel to the very last.

Because he has given us so much already, we wish Mr. Roth all the best in his retirement and will share in his happiness as he turns 80: a great career behind him, a new life of leisure, time with friends, long, guiltless swims and walks ready to begin.

In the meantime—and this is a small token, I know—I hope you enjoy our newsletter. Richard Sheehan, whom I thank sincerely, has put so much time and energy into this work. And I thank all of you who delivered conference papers and wrote reviews, articles, and books contributing to our conversations about Roth. I wish you all the best in coming year.

Fondly, Aimee Pozorski

Retirement: A Timeline

In an interview published in French Magazine Les InRocks on 7 October 2012, Philip Roth announced “Némesis sera mon dernier livre” (Nemesis will be my last book) and yet, for a month, the rest of the world, and indeed the great majority of his fans, remained blissfully unaware of the announcement.

Then, on Friday 9 November, the Salon website republished the news, and the world, literary and otherwise, took notice. It was just a short piece, not at all like the long retrospectives that appeared in other media a little while later, as if the writer and editor were still slightly disbelieving of the news, deciding to keep it brief in case they were wrong, or quickly remove it if the news were retracted.

However, they weren’t wrong, and in the days that followed, the news was reprinted many times over: “Was it true?,” people asked. “Did he mean it?”

“Did this really mean there would be no more new Philip Roth novels?”

Whatever this means for Roth fans, the news was greeted in the media and on social media sites worldwide with a mixture of disbelief and resignation. Twitter buzzed and he trended on its timeline for a brief while above modern cultural icons such as Justin Bieber and the Kardashians.

To help us read the words for ourselves, The Paris Review thoughtfully reproduced the translated interview. The interviewer was Nelly Kaprielian and the significant point comes eleven questions in:

Do you still have the desire to write?

No. Anyway, I have no intention of writing in the next ten years. To tell the truth, I’m finished.

Nemesis is going to be my last book.
… I decided that I was done with fiction. I don’t want to read any more of it, write any more of it, I don’t even want to talk about it anymore. I’ve given my life to the novel; I’ve studied it, I’ve taught it, I’ve written it, and I’ve read To the exclusion of practically everything else. It’s enough! I don’t feel that fanaticism about writing that I felt all my life. The idea of trying to write one more time is impossible to me!

So there won’t ever be another Philip Roth novel?

I don’t think another novel more or less can change whatever it is I’ve already done. And if I write a new book, it will almost certainly be a failure. Who needs another mediocre book?

You don’t have any desire to write about America today?

I’m seventy-eight, I don’t know anything anymore about America today. I watch it on TV. But I don’t live there.

To some, this came as no surprise as David Remnick said in The New Yorker:

“This is a definitive version of what he has been telling friends privately for a couple of years.”

Online site ‘Flavourwire’ listed New York’s one hundred most important living writers (I’ll let you guess who was at number one), and one of the questions they were all asked was “How do you feel about Philip Roth retiring?” The depth of respect for Roth was clear from the range of those featured. “If it’s true, the man has done his job and mightily,” said Junot Diaz. And then: “If it’s not true: better.” Robert A. Caro said, “It seems to me to be a wonderful, triumphant accomplishment when you can say, ‘I have created a body of work that will endure, and now I am done.’” A.M. Homes reflected a lot of fans’ disappointment, when she said: “Horrible. I’m in a panic – what will I do without the next Philip Roth novel?”

On November 17, Charles McGrath and The New York Times got the big scoop when they printed what Roth said would be his last interview. He explained the thinking and the events that led to his retirement. How he had made the decision shortly after finishing Nemesis in 2010, and how he had re-read the favourite books of his youth by writers such as Dostoevsky, Tolstoy and Conrad. He then also details that he re-read his own works,

“… from the last book forward, casting a cold eye. And I thought, ‘You did all right.’ But when I got to ‘Portnoy’… I had lost interest, and I didn’t read the first four books.”

Roth also detailed the plans for his biography, to be written by the biographer of Richard Yates and John Cheever – Blake Bailey – adding that he’d never been as truthful with anyone before, though, he did add: “The pay’s not so good.”

Whatever we may think with regards to whether or not Philip Roth will write again, there was an aspect of the interview with McGrath that will resonate with many authors. When he told McGrath that he has a post-it note on his computer to remind him that he is done, that: “The struggle is over,” he reminds us all, that for all the great works, for all the wonderful words, sentences and passages, it was, indeed, hard work, and he had to dig deep within himself to bring this to the fore.

For now, at least, he can rest and reflect on work well done.

In History's Grip: Philip Roth's Newark Trilogy
Michael Kimmage

In History's Grip concentrates on the literature of Philip Roth, one of America's greatest writers, and in particular on American Pastoral, I Married a Communist, and The Human Stain. Each of these novels from the 1990s uses Newark, New Jersey, to explore American history and character. Each features a protagonist who grows up in and then leaves Newark, after which he is undone by a historically generated crisis. The city's twentieth-century decline from immigrant metropolis to postindustrial disaster completes the motif of history and its terrifying power over individual destiny.

In History's Grip is the first critical study to foreground the city of Newark as the source of Roth's inspiration, and to scrutinize a subject Roth was accused of avoiding as a younger writer—history. In so doing, the book brings together the two halves of Roth's decades-long career: the first featuring characters who live outside of history's grip; the second, characters entrapped in historical patterns beyond their ken and control.

Roth and Celebrity

Aimee L. Pozorski (Editor)

Roth and Celebrity is composed of 10 original essays that consider the vexed and ambivalent relationship between Philip Roth and his own celebrity as revealed both in personal interviews as well as in the fiction that spans his publishing history. With its simultaneous interest in American popular culture and the work of the most important living American writer to-date, the collection will hold wide appeal to advanced readers in American studies, literary scholarship, and film.

Velichka Ivanova

Since its publication in 1997, American Pastoral has brought its author immense international critical acclaim and popularity. However, and as is usually the case with each new Roth book, less enthusiastic voices were immediately heard. Some critics lamented the novel’s major weakness—its haphazard narrative structure. Further, Roth was blamed for taking a conservative turn with this novel. To make things worse, accusations of misogyny flourished again.

This monograph interrogates the formal aspects of American Pastoral which may have been insufficiently studied or misinterpreted. It analyzes the architecture of the novel, i.e. the way in which the narrative is organized. Text features are studied in conjunction with some of the effects they produce according to the author’s intentions. Moreover, the meaning of the text exceeds his intention when individual readers bring in their own unique interpretations. The analysis allows one to understand the complexity of the novel and its indeterminacy: American Pastoral represents simultaneously the success of the American Dream and its destruction, the ideals of American democracy and its flaws.

The narratological approach provides a solid foundation for the argument, complemented by other methods of interrogation such as enunciative narratology, stylistics, pragmatics, sociocriticism, and reception. Structured into seven chapters, the study invites the reader to distinguish between the various narrative perspectives and ideological positions in the novel and to opt for dissonant, ironic readings, instead of passive identification with the (male, white) focal character Swede Levov.

Philip Roth: Novels 2001-2007: The Dying Animal / The Plot Against America / Exit Ghost

The Library of America’s definitive edition of Philip Roth’s collected works continues with the novels written in his late sixties and early seventies.

The Dying Animal (2001) completes the chronicle of the erotic metamorphoses of David Kepesh, depicted previously in The Breast and The Professor of Desire. Here Kepesh is over sixty when he sets out to seduce Consuela Castillo, his decorous student of twenty-four, the daughter of wealthy Cuban exiles. Unintentionally, Consuela subverts his well-ordered life with an adventure deformed by jealousy that evolves into a story of grim loss. Roth again entangles the fates of his characters with the social forces that shape our daily lives—in The Dying Animal, with the consequences of the sexual revolution of the 1960s. When the renowned aviation hero Charles A. Lindbergh defeated Franklin Roosevelt in the 1940 presidential election, fear invaded every Jewish household in America, first because Lindbergh had publicly blamed the Jews for pushing America toward a pointless war with Nazi Germany and then because, once having taken office, he negotiated a cordial “understanding” with Adolf Hitler. What followed for Jews during the Lindbergh presidency—most particularly in the Newark household of the boy Philip Roth—is the subject of The Plot Against America (2004), the fifth of the author’s Roth books.

Exit Ghost (2007) presents the final chapter in the extraordinary literary odyssey of Nathan Zuckerman, begun in 1979’s The Ghost Writer. Like a latter-day Rip Van Winkle, Zuckerman returns to New York after eleven years to find a city radically changed by the dramatic events of the new century. A rash decision quickly propels him into a complex of relationships that will expose him once more to the irresistible force of attraction, the limits of art, and the inevitability of decay.

Philip Roth: Nemeses: Everyman / Indignation / The Humbling / Nemesis

Published together for the first time as the author intended, Nemeses is a quartet of novels whose terrain is the human body and whose subject, the common experience that terrifies us all. Everyman (2006) takes its title from a classic of early English drama, whose theme is the summoning of the living to death. It tells the story of one man’s lifelong skirmish with mortality, from his first shocking confrontation with death on the idyllic beaches of his childhood summers into old age, when, facing the end, he is a man who has become what he does not want to be.

Set against the backdrop of the Korean War, Indignation (2008) is the extraordinary narrative of Marcus Messner of Newark, New Jersey, a sophomore at conservative Winesburg College in Ohio. Aspiring to intellectual independence and sexual experience while struggling to shake off the stifling conformity of his classmates and the suffocating spectre of a father mad with fear and apprehension for his beloved boy, Messner is schooled in “the terrible, the incomprehensible way one’s most banal, incidental, even comical choices achieve the most disproportionate result.”

Everything is over for Simon Axler, the protagonist of The Humbling (2009), Roth’s thirtieth book. One of the leading American stage actors of his generation, now in his sixties, he has lost his magic, his talent, and his assurance. Into this inexplicable and terrifying self-evacuation bursts a counterfeit of unusual erotic desire so risky and aberrant that it points not toward comfort and gratification but to a yet darker and more shocking end.

It is the summer of 1944 and Newark playground director Bucky Cantor is waging his own private war against a terrifying polio epidemic besieging his closely knit, family-oriented neighborhood. Focusing on Cantor’s mounting dilemmas as the epidemic ravages the children he loves, Nemesis (2010) is a tenderly exact portrait of the emotions—fear and anger, bewilderment and grief—that spread with the contagion...
Philip Roth Discussed at La Règle du Jeu

On Sunday, November 25, scholars/journalists Steve Sampson (a Philip Roth Society member), Lazare Bitoun, and Josyane Sivigneau joined moderator Alexis Lacroix for a lively discussion on Philip Roth and his writing of America. The event was part of the La Règle du Jeu series, a literary revue founded in 1990 by Bernard Henry-Levy and directed by him. The series covers literature, philosophy, politics and the arts. The November 25 discussion was part of the weekly “seminar” sponsored by the La Règle du Jeu series, and taking place on Sunday mornings at the Saint-Germain movie theatre in St. Germain des Pres, on the Left Bank near the Latin Quarter in Paris.

The Unmasking of Philip Roth...PBS Style

Later this year Philip Roth will be featured on PBS’ American Masters series.

Philip Roth: Unmasked will air on March 29, ten days after Roth’s 80th birthday. The novelist spoke via satellite earlier this week during a panel discussion in Los Angeles of the Television Critics Association. He said he doesn’t watch a lot of television, but he does make time for American Masters.

He announced recently that his 2010 novel Nemesis would be his last. He told Tim Molloy in a recent interview that he has not changed his mind and that life was going smoothly. “I’m doing fine without writing,” he said. “Someone should have told me about this earlier.”

Roth Chooses New Biographer

Blake Bailey has agreed to work with Philip Roth as his new biographer. Author of biographies on figures such as John Cheever and Richard Yates, Bailey will be taking over from Ross Miller, who had previously signed onto this project in 2004. According to Bailey, the biography should take him 8 to 10 years to complete.

W. W. Norton to Publish Roth Biography

The Associated Press has reported that Blake Bailey’s biography of Philip Roth has been acquired by publisher W. W. Norton and Co. The book is tentatively titled Philip Roth: The Biography. A spokesman for Norton said on Thursday that this book will be the definitive account of the novelist’s life, and that Bailey will have unrestricted access to Roth’s papers and unpublished works. No release date has been set.

Philip Roth’s Open Letter to Wikipedia

In a September 7th posting on the blog of The New Yorker, Philip Roth contributes “An Open Letter to Wikipedia,” pointing out incorrect information posted in The Human Stain entry found on the popular web-based resource. In particular, Roth notes the inaccuracy of the Anatole Broyard reference regarding the creation of his 2000 novel:

“The entry contains a serious misstatement that I would like to ask to have removed. This item entered Wikipedia not from the world of truthfulness but from the babble of literary gossip—there is no truth in it at all.”

Roth goes on to clarify that the events surrounding Coleman Silk’s dilemma were actually inspired by the circumstances of his late friend, Melvin Tumin, a longtime professor of sociology at Princeton.

Readers of Roth’s “Open Letter” go on to comment on his assumptions of Wikipedia and accuse him of not understanding the medium.

**Philip Roth Society Activity at the 2013 MLA Conference**

Philip Roth’s Music, an MLA panel sponsored by the Philip Roth Society, considered the under-theorized role of music in Philip Roth’s fiction. Speakers included:

Ira Nadel*, University of British Columbia, “Philip Roth and the Music of Seduction”

Aimee Pozorski*, Central Connecticut State University, “Nationalism, Lyricism and Self-Loathing in I Married a Communist and Indignation”

Matthew Shipe*, Washington University, “Dream a Little Dream: Music as Counternarrative in Philip Roth’s Late Fiction”

Respondent: Jane Statladder-Slotte*, Miami International University of Art and Design

With Jane Statladder-Slotte as Respondent, Ira Nadel, Aimee L. Pozorski, and Matthew Shipe presented papers on the theme of music in Roth’s work. In the absence of previous scholarship, this panel, in part, relies on Nadel’s discussions of classical and modern musical references in Roth’s work from his recent study, Critical Companion to Philip Roth (New York: Facts on File, 2011). Examples of Roth’s investment in music begin with the satiric refrain of Ohio State University’s graduation song in “Goodbye, Columbus”; the references to opera in Letting Go; and composers’ names and works strategically referenced in a variety of other novels. Nadel’s paper, “Philip Roth and the Music of Seduction,” closely reads such novels as Portnoy’s Complaint (1969), The Human Stain (2000), and The Dying Animal (2001) in order to emphasize the seductive influence of Roth’s use of music. In so doing, Nadel examines the relationship Roth establishes between music and sex, showcasing the ways in which Roth’s protagonists employ male composers in their pursuit of women. Performance will be another aspect of the discussion with particular attention to Yefim Bronfman’s Prokofiev concert at Tanglewood in The Human Stain and the performance of the last movement of Mahler’s Third Symphony at Coleman Silk’s funeral. David Kepesh’s piano studies in The Dying Animal will also be reviewed.

In a turn to the more political aspects of Roth’s fiction, Aimee Pozorski’s paper reads the relationship between nationalism and lyricism in protest songs—especially as Roth depicts these songs in Roth’s later works, I Married a Communist (1998) and Indignation (2008). Specifically, her paper considers how Roth’s narrators recall lyrics from nationalistic songs in order to evoke patriotic sentiments—sentiments that often work against the narrator in that they ultimately produce not the desired sense of patriotism but rather a nagging self-loathing that can be met only with silence. Finally, Matthew Shipe argues in his paper, “Music and Counternarrative in Roth’s Late Fiction,” that music plays an increasingly significant role in Roth’s later works as their aging narrators employ music to inspire and shape their own narratives and sense of the past. Shipe proposes that music plays a profound narrative function in both American Pastoral (1997) and The Human Stain (2000), as Nathan Zuckerman returns to the songs of his adolescent, the jazz and pop songs of the late 1940s, as a way of revisiting his past. However, according to Shipe, this shift appears most dramatically in Exit Ghost (2007), when Nathan Zuckerman, now suffering from accelerated memory loss that threatens his identity as a writer, turns to Strauss’s Four Last Songs as an inspiration for his final piece of writing—a play that he entitles He & She.

Philip Roth Society Activity at the 2013 MLA Conference

Philip Roth’s Music, an MLA panel sponsored by the Philip Roth Society, considered the under-theorized role of music in Philip Roth’s fiction. Speakers included:

Ira Nadel*, University of British Columbia, “Philip Roth and the Music of Seduction”

Aimee Pozorski*, Central Connecticut State University, “Nationalism, Lyricism and Self-Loathing in Exit Ghost, Infamous”

Matthew Shipe*, Washington University, “Dream a Little Dream: Music as Counter-narrative in Philip Roth’s Late Fiction”

Respondent: Jane Statlender-Slote*, Miami International University of Art and Design

With Jane Statlender-Slote as Respondent, Ira Nadel, Aimee L. Pozorski, and Matthew Shipe presented papers on the theme of music in Roth’s work. In the absence of previous scholarship, this panel, in part, relies on Nadel’s discussions of classical and modern musical references in Roth’s work from his recent study, Critical Companion to Philip Roth (New York: Facts on File, 2011). Examples of Roth’s investment in music begin with the satiric refrain of Ohio State University’s graduation song in “Goodbye, Columbus”; the references to opera in Letting Go; and composers’ names and works strategically referenced in a variety of other novels. Nadel’s paper, “Philip Roth and the Music of Seduction,” closely reads such novels as Portnoy’s Complaint (1969), The Human Stain (2000), and The Dying Animal (2001) in order to emphasize the seductive influence of Roth’s use of music. In so doing, Nadel examines the relationship Roth establishes between music and sex, showcasing the ways in which Roth’s protagonists employ male composers in their pursuit of women. Performance will be another aspect of the discussion with particular attention to Yefim Bronfman’s Prokofiev concert at Tanglewood in The Human Stain and the performance of the last movement of Mahler’s Third Symphony at Coleman Silk’s funeral. David Kepesh’s piano studies in The Dying Animal will also be reviewed.

In a turn to the more political aspects of Roth’s fiction, Aimee Pozorski’s paper reads the relationship between nationalism and lyricism in protest songs—especially as Roth depicts these songs in Roth’s later works, I Married a Communist (1998) and Indignation (2008). Specifically, her paper considers how Roth’s narrators recall lyrics from nationalistic songs in order to evoke patriotic sentiments—sentiments that often work against the narrator in that they ultimately produce not the desired sense of patriotism but rather a nagging self-loathing that can be met only with silence. Finally, Matthew Shipe argues in his paper, “Music and Counternarrative in Roth’s Late Fiction,” that music plays an increasingly significant role in Roth’s later works as their aging narrators employ music to inspire and shape their own narratives and sense of the past. Shipe proposes that music plays a profound narrative function in both American Pastoral (1997) and The Human Stain (2000), as Nathan Zuckerman returns to the songs of his adolescence, the jazz and pop songs of the late 1940s, as a way of revisiting his past. However, according to Shipe, this shift appears most dramatically in Exit Ghost (2007), when Nathan Zuckerman, now suffering from accelerated memory loss that threatens his identity as a writer, turns to Strauss’s Four Last Songs as an inspiration for his final piece of writing—a play that he entitles He & She.

Roth Chooses New Biographer
Blake Bailey has agreed to work with Philip Roth as his new biographer. Author of biographies on figures such as John Cheever and Richard Yates, Bailey will be taking over from Ross Miller, who had previously signed onto this project in 2004. According to Bailey, the biography should take him 8 to 10 years to complete.

W. W. Norton to Publish Roth Biography
The Associated Press has reported that Blake Bailey’s biography of Philip Roth has been acquired by publisher W. W. Norton and Co. The book is tentatively titled Philip Roth: The Biography. A spokesman for Norton said on Thursday that this book will be the definitive account of the novelist’s life, and that Bailey will have unrestricted access to Roth’s papers and unpublished works. No release date has been set.

Philip Roth’s Open Letter to Wikipedia
In a September 7th posting on the blog of The New Yorker, Philip Roth contributes “An Open Letter to Wikipedia,” pointing out incorrect information posted in The Human Stain entry found on the popular web-based resource. In particular, Roth notes the inaccuracy of the Anatole Broyard reference regarding the creation of his 2000 novel:

“There is a serious misstatement that I would like to ask to have removed. This item entered Wikipedia not from the world of truthfulness but from the babble of literary gossip—there is no truth in it at all.”

Roth goes on to clarify that the events surrounding Coleman Silk’s dilemma were actually inspired by the circumstances of his late friend, Melvin Tumin, a longtime professor of sociology at Princeton. Readers of Roth’s “Open Letter” go on to comment on his assumptions of Wikipedia and accuse him of not understanding the medium.

Philip Roth Discussed at La Règle du Jeu

On Sunday, November 25, scholars/journalists Steve Sampson (a Philip Roth Society member), Lazare Bitoun, and Josyane Sivigneau joined moderator Alexis Lacroix for a lively discussion on Philip Roth and his writing of America. The event was part of the La Règle du Jeu series, a literary revue founded in 1990 by Bernard Henry-Levy and directed by him. The series covers literature, philosophy, politics and the arts. The November 25 discussion was part of the weekly “seminar” sponsored by the La Règle du Jeu series, and taking place on Sunday mornings at the Saint-Germain movie theatre in St. Germain des Pres, on the Left Bank near the Latin Quarter in Paris.

The Unmasking of Philip Roth...PBS Style

Later this year Philip Roth will be featured on PBS’ American Masters series.

Philip Roth: Unmasked will air on March 29, ten days after Roth’s 80th birthday. The novelist spoke via satellite earlier this week during a panel discussion in Los Angeles of the Television Critics Association. He said he doesn’t watch a lot of television, but he does make time for American Masters.

He announced recently that his 2010 novel Nemesis would be his last. He told Tim Molloy in a recent interview that he has not changed his mind and that life was going smoothly. “I’m doing fine without writing,” he said. “Someone should have told me about this earlier.”

**Philip Roth: Novels 2001-2007: The Dying Animal / The Plot Against America / Exit Ghost**

The Library of America’s definitive edition of Philip Roth’s collected works continues with the novels written in his late sixties and early seventies.

*The Dying Animal* (2001) completes the chronicle of the erotic metamorphoses of David Kepesh, depicted previously in *The Breast* and *The Professor of Desire*. Here Kepesh is over sixty when he sets out to seduce Consuela Castillo, his decorous student of twenty-four, the daughter of wealthy Cuban exiles. Unintentionally, Consuela subverts his well-ordered life with an adventure deformed by jealousy that evolves into a story of grim loss. Roth again entangles the fates of his characters with the social forces that shape our daily lives—in *The Dying Animal*, with the consequences of the sexual revolution of the 1960s.

When the renowned aviation hero Charles A. Lindbergh defeated Franklin Roosevelt in the 1940 presidential election, fear invaded every Jewish household in America, first because Lindbergh had publicly blamed the Jews for pushing America toward a pointless war with Nazi Germany and then because, once having taken office, he negotiated a cordial “understanding” with Adolf Hitler. What followed for Jews during the Lindbergh presidency—most particularly in the Newark household of the boy Philip Roth—is the subject of *The Plot Against America* (2004), the fifth of the author’s Roth books.

*Exit Ghost* (2007) presents the final chapter in the extraordinary literary odyssey of Nathan Zuckerman, begun in 1979’s *The Ghost Writer*. Like a latter-day Rip Van Winkle, Zuckerman returns to New York after eleven years to find a city radically changed by the dramatic events of the new century. A rash decision quickly propels him into a complex of relationships that will expose him once more to the irresistible force of attraction, the limits of art, and the inevitability of decay.

**Philip Roth: Nemeses: Everyman / Indignation / The Humbling / Nemesis**

Published together for the first time as the author intended, *Nemeses* is a quartet of novels whose terrain is the human body and whose subject, the common experience that terrifies us all. *Everyman* (2006) takes its title from a classic of early English drama, whose theme is the summoning of the living to death. It tells the story of one man’s lifelong skirmish with mortality, from his first shocking confrontation with death on the idyllic beaches of his childhood summers into old age, when, facing the end, he is a man who has become what he does not want to be.

Set against the backdrop of the Korean War, *Indignation* (2008) is the extraordinary narrative of Marcus Messner of Newark, New Jersey, a sophomore at conservative Winesburg College in Ohio. Aspiring to intellectual independence and sexual experience while struggling to shake off the stifling conformity of his classmates and the suffocating spectre of a father mad with fear and apprehension for his beloved boy, Messner is schooled in “the terrible, the incomprehensible way one’s most banal, incidental, even comical choices achieve the most disproportionate result.”

Everything is over for Simon Axler, the protagonist of *The Humbling* (2009), Roth’s thirtieth book. One of the leading American stage actors of his generation, now in his sixties, he has lost his magic, his talent, and his assurance. Into this inexplicable and terrifying self-evacuation bursts a counterplot of unusual erotic desire so risky and aberrant that it points not toward comfort and gratification but to a yet darker and more shocking end.

It is the summer of 1944 and Newark playground director Bucky Cantor is waging his own private war against a terrifying polio epidemic besieging his closely knit, family-oriented neighborhood. Focusing on Cantor’s mounting dilemmas as the epidemic ravages the children he loves, *Nemesis* (2010) is a tenderly exact portrait of the emotions—fear and anger, bewilderment and grief—that spread with the contagion...
Roth and Celebrity
Aimee L. Pozorski (Editor)

Roth and Celebrity is composed of 10 original essays that consider the vexed and ambivalent relationship between Philip Roth and his own celebrity as revealed both in personal interviews as well as in the fiction that spans his publishing history. With its simultaneous interest in American popular culture and the work of the most important living American writer to-date, the collection will hold wide appeal to advanced readers in American studies, literary scholarship, and film.

Publisher: Lexington Books; 1 edition (20 Sep 2012)

Velichka Ivanova

Since its publication in 1997, American Pastoral has brought its author immense international critical acclaim and popularity. However, and as is usually the case with each new Roth book, less enthusiastic voices were immediately heard. Some critics lamented the novel’s major weakness—its haphazard narrative structure. Further, Roth was blamed for taking a conservative turn with this novel. To make matters worse, accusations of misogyny flourished again.

This monograph interrogates the formal aspects of American Pastoral which may have been insufficiently studied or misinterpreted. It analyzes the architecture of the novel, i.e. the way in which the narrative is organized. Text features are studied in conjunction with some of the effects they produce according to the author’s intentions. Moreover, the meaning of the text exceeds his intention when individual readers bring in their own unique interpretations. The analysis allows one to understand the complexity of the novel and its indeterminacy: American Pastoral represents simultaneously the success of the American Dream and its destruction, the ideals of American democracy and its flaws.

The narratological approach provides a solid foundation for the argument, complemented by other methods of interrogation such as enunciative narratology, stylistics, pragmatics, sociocriticism, and reception. Structured into seven chapters, the study invites the reader to distinguish between the various narrative perspectives and ideological positions in the novel and to opt for dissonant, ironic readings, instead of passive identification with the (male, white) focal character Swede Levov.

American Pastoral, la vie réinventée
Paule Lévy

An analysis of Philip Roth’s Novel, American Pastoral.

Paperback
Publisher: Presses Universitaires de France - PUF (27 April 2012)
Language: French

I decided that I was done with fiction. I don’t want to read any more of it, write any more of it, I don’t even want to talk about it anymore. I’ve given my life to the novel. I’ve studied it, I’ve taught it, I’ve written it, and I’ve read it. To the exclusion of practically everything else. It’s enough! I don’t feel that fanaticism about writing that I felt all my life. The idea of trying to write one more time is impossible to me!

So there won’t ever be another Philip Roth novel?

I don’t think another novel more or less can change whatever it is I’ve already done. And if I write a new book, it will almost certainly be a failure. Who needs another mediocre book?

You don’t have any desire to write about America today?

I’m seventy-eight, I don’t know anything anymore about America today. I watch it on TV. But I don’t live there.

To some, this came as no surprise as David Remnick said in The New Yorker:

‘This is a definitive version of what he has been telling friends privately for a couple of years.’

Online site ‘Flavourwire’ listed New York’s one hundred most important living writers (I’ll let you guess who was at number one), and one of the questions they were all asked was “How do you feel about Philip Roth retiring?” The depth of respect for Roth was clear from the range of those featured. “If it’s true, the man has done his job and mightily,” said Junot Diaz. And then: “If it’s not true: better.” Robert A. Caro said, “It seems to me to be a wonderful, triumphant accomplishment when you can say, ‘I have created a body of work that will endure, and now I am done.’” A.M. Homes reflected a lot of fans’ disappointment, when she said: “Horrible. I’m in a panic – what will I do without the next Philip Roth novel?”

On November 17, Charles McGrath and The New York Times got the big scoop when they printed what Roth said would be his last interview. He explained the thinking and the events that led to his retirement. How he had made the decision shortly after finishing Nemesis in 2010, and how he had re-read the favourite books of his youth by writers such as Dostoevsky, Tolstoy and Conrad. He then also details that he re-read his own works,

‘… from the last book forward, casting a cold eye. And I thought, ’You did all right.’ But when I got to ‘Portnoy’ … I had lost interest, and I didn’t read the first four books.”

Roth also detailed the plans for his biography, to be written by the biographer of Richard Yates and John Cheever – Blake Bailey – adding that he’d never been as truthful with anyone before, though, he did add: “The pay’s not so good.”

Whatever we may think with regards to whether or not Philip Roth will write again, there was an aspect of the interview with McGrath that will resonate with many authors. When he told McGrath that he has a post-it note on his computer to remind him that he is done, that: “The struggle is over,” he reminds us all, that for all the great works, for all the wonderful words, sentences and passages, it was, indeed, hard work, and he had to dig deep within himself to bring this to the fore.

For now, at least, he can rest and reflect on work well done.

Richard Sheehan, Newsletter Editor
Continued …

As such, I am recycling my former title, “In Memoriam,” here. It is to remember the children of Sandy Hook and also to point up something we should have realized already—the fact that, despite the notice Roth has garnered for his focus on the post World War II generation and his youth among the Jewish American community, he has always been interested in the fate and futures of the children—from his very first novel to the very last.

Because he has given us so much already, we wish Mr. Roth all the best in his retirement and will share in his happiness as he turns 80: a great career behind him, a new life of leisure, time with friends, long, guiltless swims and walks ready to begin.

In the meantime—and this is a small token, I know—I hope you enjoy our newsletter. Richard Sheehan, whom I thank sincerely, has put so much time and energy into this work. And I thank all of you who delivered conference papers and wrote reviews, articles, and books contributing to our conversations about Roth. I wish you all the best in coming year.

Fondly, Aimee Pozorski

Retirement: A Timeline

In an interview published in French Magazine Les InRocks on 7 October 2012, Philip Roth announced “Némésis sera mon dernier livre” (Nemesis will be my last book) and yet, for a month, the rest of the world, and indeed the great majority of his fans, remained blissfully unaware of the announcement.

Then, on Friday 9 November, the Salon website republished the news, and the world, literary and otherwise, took notice. It was just a short piece, not at all like the long retrospectives that appeared in other media a little while later, as if the writer and editor were still slightly disbelieving of the news, deciding to keep it brief in case they were wrong, or quickly remove it if the news were retracted.

However, they weren’t wrong, and in the days that followed, the news was reprinted many times over: “Was it true?,” people asked. “Did he mean it?”

“Did this really mean there would be no more new Philip Roth novels?”

Whatever this means for Roth fans, the news was greeted in the media and on social media sites worldwide with a mixture of disbelief and resignation. Twitter buzzed and he trended on its timeline for a brief while above modern cultural icons such as Justin Bieber and the Kardashians.

To help us read the words for ourselves, The Paris Review thoughtfully reproduced the translated interview. The interviewer was Nelly Kaprielian and the significant point comes eleven questions in: Do you still have the desire to write?

No. Anyway, I have no intention of writing in the next ten years. To tell the truth, I’m finished.

Nemesis is going to be my last book.
In Memoriam

Dear All,

This issue of our newsletter attempts to address two major turning points in the life of Philip Roth: The late-fall announcement that he is indeed retiring; and, come spring, the celebration of his 80th birthday. While we all felt slightly disoriented and unprepared for Roth's retirement, we have been planning eagerly for over a year to celebrate Roth’s birthday with him in March.

When the Huffington Post asked me, and several other Roth scholars – many of whom are members of this Society – whether I would write a personal reaction to Roth’s retirement, I dutifully agreed. However, I did not start writing the essay in earnest until mid December. Originally entitled, “In Memoriam,” I had planned to finish and submit the essay on Friday, December 14 – the day of the shooting at Sandy Hook Elementary school in Newtown, CT, about 40 minutes from my son’s elementary school. The title was intended to allude to a Tennyson elegy but also to reflect the sadness we all felt – our own elegiac responses – to the retirement of one of our literary heroes. Not yet cognizant of the impropriety of comparing the retirement of one of America’s greatest living writers to an actual death or deaths, I put my pen down in the morning and went in to “volunteer” at my son’s school.

The visit was unanticipated of course. What I really wanted to do was to give my son a hug. But the teachers had not yet heard of Sandy Hook, and the fourth grade classroom seemed to be doing fine without me, so I was thanked and sent home to return to my writing.

I sent the essay off that day – with sadness on my mind, the children’s families in my thoughts – and left the title of my own little essay as is. The Huffington Post was the first to discover the error in judgment, and I was a close second: We will run the essay, my editor said, but not with this title. It is too soon after Newtown, he said. And of course, I understood completely: I changed the title to something far less obsessed with death—and I resubmitted.

I bring this up now because I have reflected often on my actions since December 14 – some actions unconscious, others steeped in sadness and worry – and realized, in part, what our initial reaction to Roth’s retirement has meant. We all have become used to turning to Roth’s literature in order to process the horrors in life and the unsettling aspects of American history. Roth has used his narrative genius to make sense of what we feel we otherwise cannot articulate: the polio epidemic, the spread of Nazi totalitarianism and anti-Semitic attitudes, World War II, the Red Scare, the Korean War, Vietnam, life post 9-11, confrontation with terminal illness, abuse, terror, and the list goes on. How will we as a culture come to terms with gun violence and the horror of 12/14/12? I am not quite sure. But I can say that the literary landscape will be lesser without the appearance of another Roth novel another communication in the void of understanding. (Continued …)
